 - (4) Carpet Spikes (015-0298-xx)
- (1) Hex Tool (015-0299-xx)
- (1) Installation Guide (This document)

Assemble Speaker Stand

1. Insert the stand into the top of the speaker stand base.
2. Install the three base screws into the bottom of the stand using the hex tool provided.
3. **Optional:** Install mounting feet or carpet spikes as the deployment requires.

Install Smart Audio Surround Speakers

4. Remove the two screws on the rear panel.
5. Plug the power cord into the 120/240V power cord input and thread the power cord port through the stand and out of the base.
Note: If cord is not long enough, attach the included extender before threading.
6. Place the SPK-SUR3WSx-xx against the stand and attach it with the securing screws.
