

# Cync Smart Motion Sensor

## Smart Motion Sensor

Indoor/Outdoor	Indoor
Degrees of Motion	100°
Detection Range	20ft
Bluetooth	For local control
Dimensions	4.49"H x 2.36"W x 2.36"D
Rated Life	17520 hours
Mobile OS	iOS/Android via Cync App

## Smart Motion Sensor Includes:

- Wire-Free Motion Sensor
- (2) Batteries (pre-installed)
- Magnetic Mount
- Mounting Bracket
- Mounting Screw
- Drywall Anchor
- Installation Guide

## Add Motion Sensing Light Anywhere

The battery powered motion sensor triggers Cync Smart Bulbs, Smart Plugs, and Smart Switches with Bluetooth to turn on when someone enters the room.

## Programmable Motion Sensing

Schedule wire-free motion sensor to deactivate using the Cync app during certain hours or turn light bulbs on softly at nighttime. Any room in the house can have motion activated light.

## Automatically Turn Off Devices

Connect the Smart Motion Sensor with the Cync Smart Plug in the Cync app and the motion sensor will automatically turn off devices if no one is in the room.

## Dim / Brighten Traditional Lights

Dim and brighten traditional lights using touch or app, and add voice control when paired with a voice assistant (like Google Home and Amazon Alexa).

## Wirelessly Connect

Connect multiple switches without a travel wire required, and connect switches on different circuits, like controlling a kitchen light from the hallway.
