1. Music Service Selection

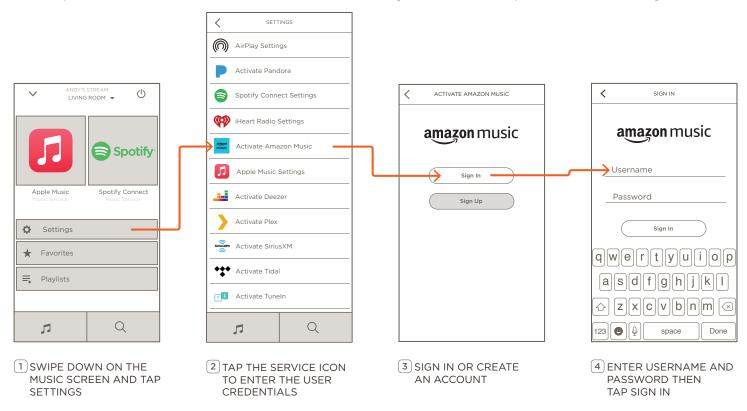

Tap the Music icon from the Savant App Home screen to turn on the Music service.

TIP: Tap, hold and drag-down on the current room to go back to Home or access another room.

2. Adding a Streaming Service

The example below shows how to add the Deezer music streaming service. The basic process for all streaming services is similar.

2.1. Service Account Information

This is a basic list of what is needed for each supported streaming service. For more information see Appendix A: Streaming Service Information.

Amazon Music: Account login uses email and password. Amazon Prime and Amazon Music Unlimted accounts are supported.

Apple Music: Account login uses email address and password.

Deezer: Account login uses email and password. Deezer Premium and HiFi accounts are supported.

iHeartRadio: Account login uses email address and password.

Pandora: Account login uses email address and password.

Plex: Account login uses user name and password. Server also must be selected in Plex Settings.

SiriusXM: Account login uses email address and password.

SoundMachine: Account login uses email address and password.

Tuneln: No account login required.

NOTE: Streaming services may require paid accounts. This requirement may be changed at any time by the streaming service provider without notice.

2.2. Configured Account

Once an account for a streaming service has been added, the account can be configured within the stream-specific settings menu. Streaming services that require accounts can be added, disabled, or deleted. The user may switch between multiple added accounts.

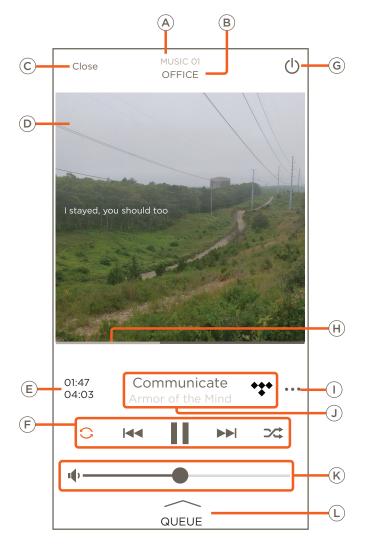

Add Account: Add an additional account to the Savant system.

Sign Out: Log out of that account for all streaming servers within the Savant Home.

Disable: Disable the specific account for the specific streaming server.

3. Now Playing

The Now Playing screen can be accessed by swiping up on the Now Playing Ribbon at the bottom of the screen after pressing play on a song. **NOTE:** The Savant App Music Service will automatically power off if nothing is playing after a 90-minute period.

- A Service Name Name of the service.
- **B** Room The room that the service is being controlled in.
- Close Returns to the last active screen.
- **D** Album Art Cover art for the album is displayed.
- (E) Time Elapsed Displays the amount of time elapsed over song length.

Service Controls - Basic control of the active stream.

Repeat: Allow songs in the active queue to replay once complete. The icon will change color to orange to show the Repeat feature is on. Tap twice to repeat the currently playing song until repeat is toggled off.

Back: Returns to the beginning of the song or if at the beginning of a song will go to the previous song.

- Play/Pause: Starts or stops the current song playing.
 - Forward: Skips to the next song in the active queue.

Shuffle: Plays all songs in the active queue in a random order. The icon will change color to orange to show the Shuffle feature is on.

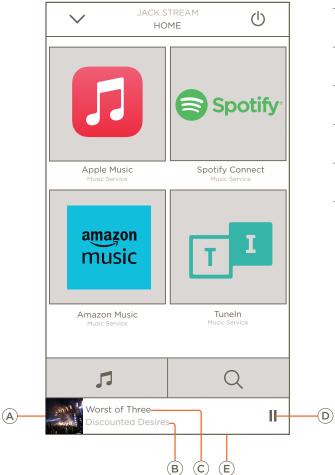

NOTE: The Now Playing screen controls are dynamic and shown upon the music providers capabilities and features. For example, not all live radio stations allow songs to be skipped.

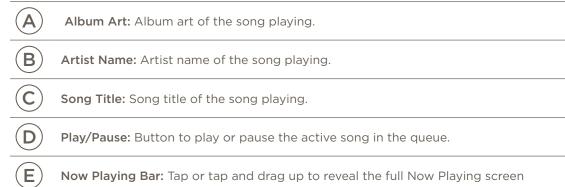

- **G** Power Powers off the service.
- Progress Bar Visual representation of time elapsed in the current song.

 NOTE: Some streaming servies will not allow the user to scrub through a song with the progress bar.
- Options Opens the Options menu. For information on Options, see Playlists.
- **Song Info** Displays the track or station info, as well as streaming service used.
- **K** Volume Controls Increase or decrease volume of the zone. Mute button will toggle sound on and off.
- (L) Queue Tap or swipe up to access the Queue page. For information, see Queue.

3.1. Now Playing Bar

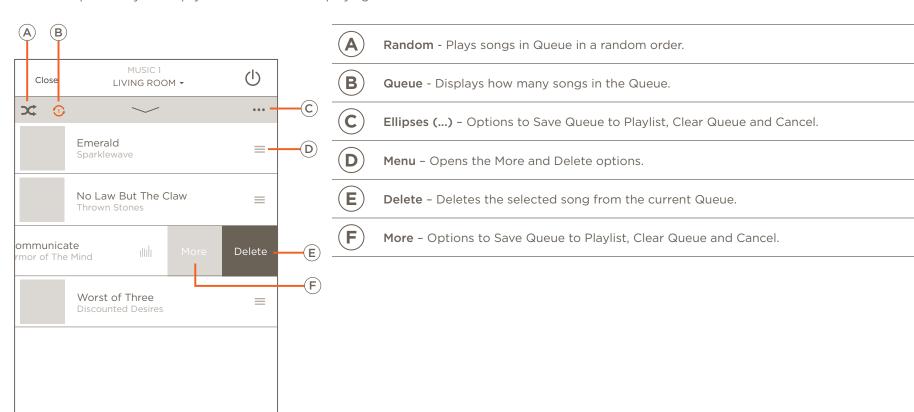

Once music is playing, all screens inside the Music service will display a ribbon at the bottom of the screen displaying the actively playing song.

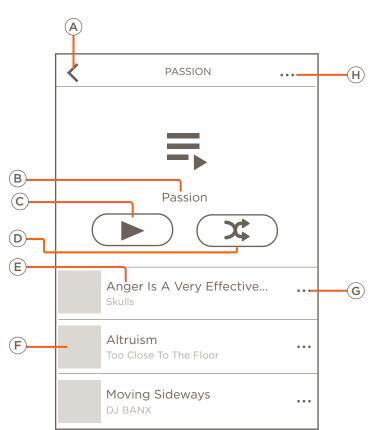

4. Queue

The Queue screen can be accessed by tapping or swiping up on the Queue Ribbon at the bottom of the Now Playing screen. **NOTE:** The queue may be empty or uneditable whilst playing a radio station.

5. Playlists

Tap Playlists from the Music Selection screen to bring up a list of saved playlists. Tap the name of the playlist to open the Playlist screen.

- A Back Returns to the last screen.
 - **B**) Playlist Name Displays the name of the selected playlist.
- Play Press to play the first song on the playlist.
- **D** Shuffle Plays the playlist in a randomized order.
- **E** Song Information Displays song title and artist.
- $ig(oldsymbol{\mathsf{F}} ig)$ Playlist Art Displays album artwork or streaming service thumbnail from the playlist.
- **(G) Options -** Tap the ... next to a song to reveal the options window for that song.
- (H) Actions Tap the ... in the top right to reveal the actions window for the playlist.

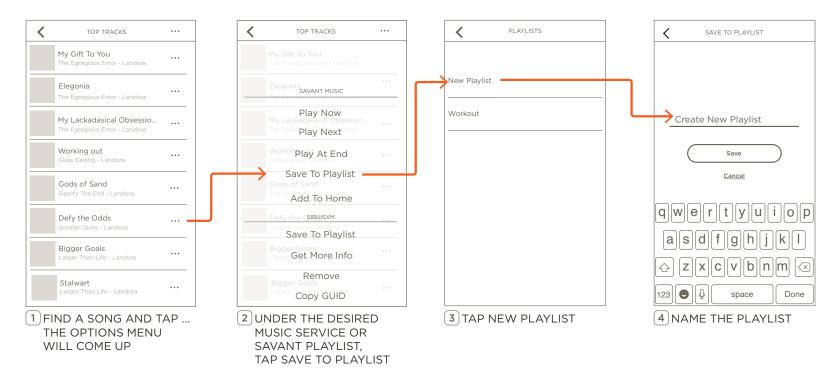

- Play All Now: Replaces queue and plays now.
- **Play All Next:** Adds the playlist songs to the queue after the current song.
- Play All At End: Adds the playlist songs to the song queue at the end of the current list of songs.
- Save As Favorite: Adds the playlist to the Favorites.
- **Save To Playlist:** Adds the contents of the playlist to a new or existing Savant or specific streaming service playlist.
- **Add To Home:** Adds the song to the Home screen of the Music Service or individual streaming service.

5.1. Create a New Playlist

Savant Playlists can contain music from multiple streaming services, while stream-specific playlists contain only music available within that streaming service. This section details the steps to create a new Savant Playlist. A song can be added from any of the locations that songs are listed. This example uses the Top Tracks Screen. Once a song has been found, do the following:

NOTE:

- Songs from Spotify and Pandora cannot be added to Savant Playlists.
- Pandora playlists are not accessible using Savant Music Service.

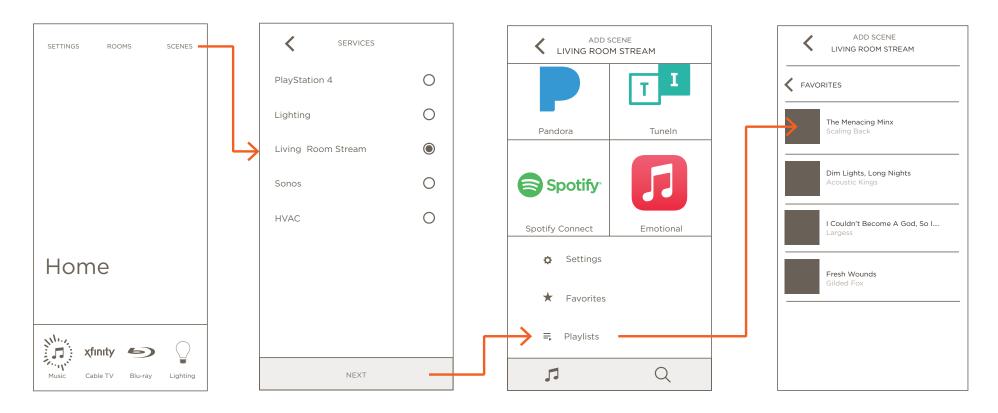

6. Favorites

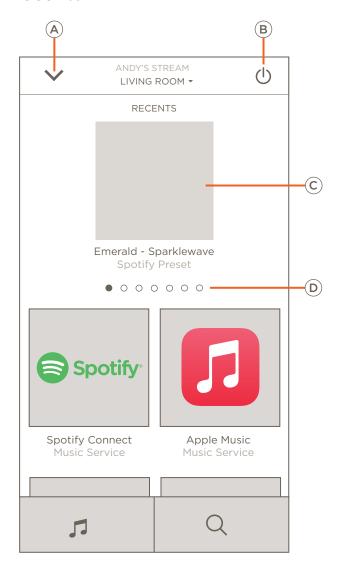

- A Back Returns to the last screen.
- **B** Song Name Title of the song.
- **C** Album Art Visual description of the album.
- Options Tap the ... icon for options detailed in the Playlist section.
- (E) Album Details Tap to view individual songs from an album.

NOTE: Savant Music Favorites can be created even while Spotify Connect is in use to quickly recall later without opening the Spotify App.

7. Adding Playlists and Favorites to a Scene

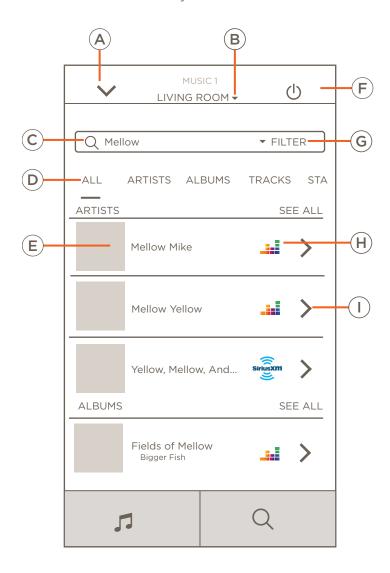

8. Recents

- **Exits** Exits the music service and returns to the home or room screen of the Savant app.
- **B** Power Powers off the Music service.
- **C** Album Art Visual description of the album, playlist or service used.
- **D** Recents Swipe to view the most recently played album, playlist or favorite.

9. Search

Tap the Spyglass icon on the bottom right-hand corner of the Music Selection screen to access the Search screen. The following is a description of all fields and their functionality.

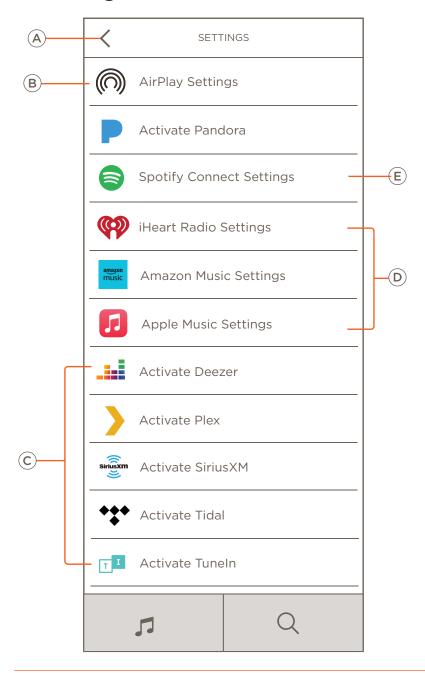

A	Exit – Exits the music service and returns to the home or room screen of the Savant app.
B	Room - Tap to distribute audio stream to Home.
(C)	Search Text - Enter search term.
(D)	Search by - Defaults to search for all. Tap individual fields to narrow search, and swipe left to view different search conditions.
\bigcirc	NOTE: The Spotify App must be used to search Spotify.
E	Artist Info - Artist picture and information.
F	Power - Powers off the Music service.
G	Filter - Filter results by streaming service.
H	Streaming Service - Service the song will be streamed from.
	Subitems > - Tap to view items of selected Artist, Album, Track, Station, Playlist or Podcast.

NOTE: Recent Searches will be displayed first if any term has been searched beforehand. Tap the X icon next to any recently searched music to remove the media from Recent Searches, or tap **CLEAR** to remove all recent searches.

menu. Tap to Open the Options menu.

Options ... - Individual songs that fit the search criteria will display the Options

10. Settings

(A)

Back - Returns to the last screen.

B

AirPlay Settings - Rename, enable or disable AirPlay. Set Unable or Fixed Volume input setting for audio stream. Choose to control volume on Apple Device or by Savant.

NOTE: Must be activated before AirPlay and AirPlay settings are available.

(c)

Streaming services available to be added.

 (\mathbf{D})

Configured Streaming Services – Displays settings available for previously activated music streaming services.

(E)

Spotify Connect Settings - Rename how the device appears in the Spotify App. Enable or Disable Spotify Connect.

Appendix A: Streaming Service Information

Spotify Connect

Use your phone, tablet or computer as a remote control for Spotify. Go to spotify.com/connect to learn how.

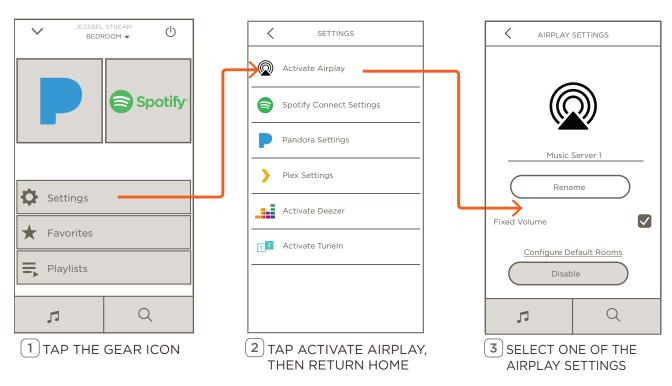

IMPORTANT NOTES:

- Tapping on the Spotify icon or album art in the Savant App will automatically open the Spotify App.
- For information about **Configuring Default Rooms** for Spotify, see the **Default Rooms** section.
- Spotify Free and Spotify Premium are both supported.
- Opening the Spotify Tile is not required to start listening to Spotify.
- For information about creating Spotify Connect Endpoints, see the Spotify Connect Endpoints section.
- Spotify Connect can be disabled by navigating to the Spotify Connect Settings and selecting Disable.

AirPlay

To use the AirPlay feature, power on the Savant Music service and leave it at the Service Selection screen. Control and play audio from the device that is connected to Savant Music Server via AirPlay.

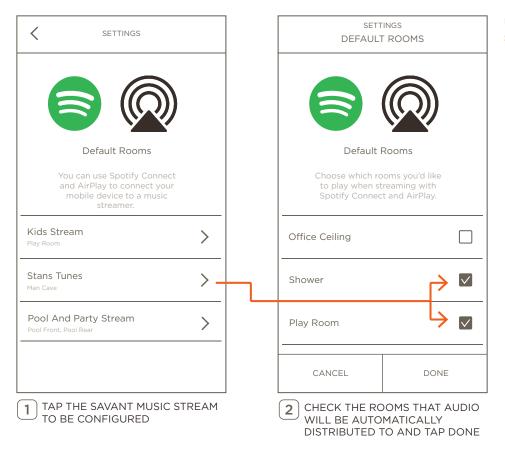

Navigate to AirPlay Settings

Tap to edit the name used for AirPlay from supported devices.
Tap to toggle between fixed and variable volume for the AirPlay server.
Tap to choose which rooms and at what volume audio will be played at automatically when using AirPlay or Spotify Connect.
Tap to toggle AirPlay on and off.

Default Rooms

Both Spotify Connect and AirPlay can take advantage of using **Default Rooms**. Rooms that configured as Default Rooms will automatically turn on when either AirPlay or a Spotify Connect starts on Savant Music. Once configured, this feature allows for playback through Savant Music without having to power on the music service in the Savant App. Navigate in the Savant App from **Settings** > **Audio Settings** > **Default Rooms** to configure.

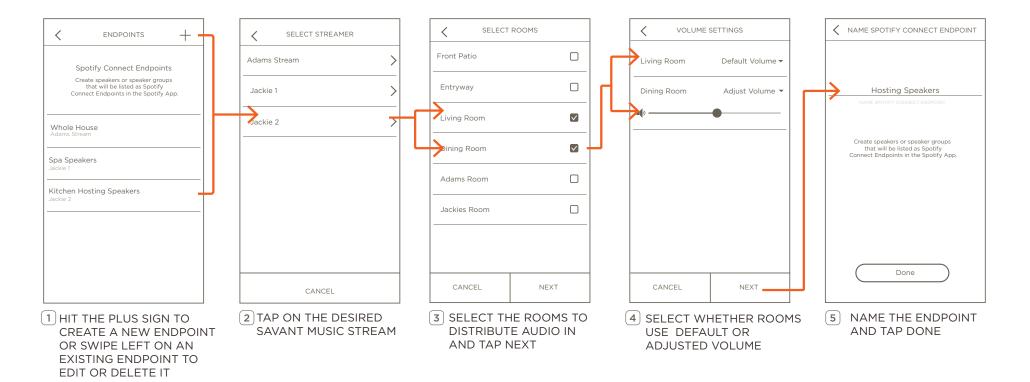

Use your phone, tablet or computer as a remote control for Spotify. Go to spotify.com/connect to learn how.

Spotify Connect Endpoints

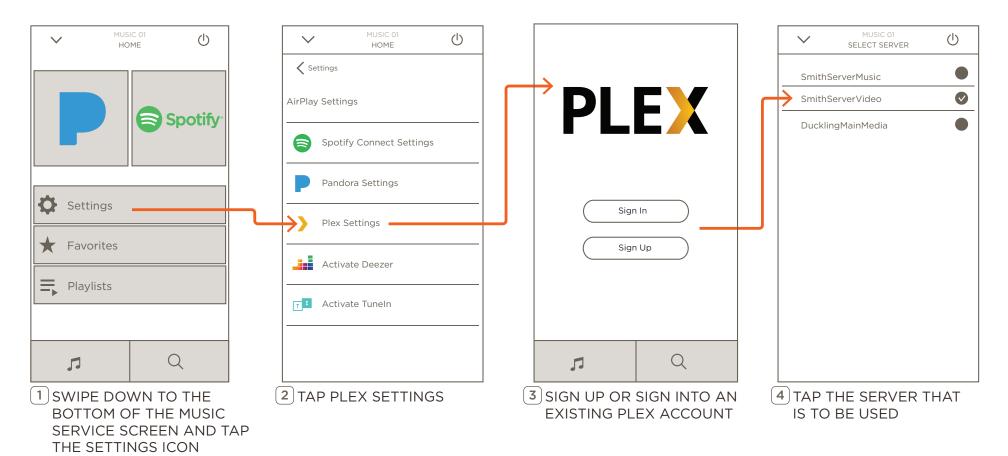

Spotify Connect Endpoints can be configured to show individual or groupings of Savant Speakers within the Spotify app. To configure Spotify Connect Endpoints, navigate from the Home Screen to Settings > Audio Settings > Spotify Connect Endpoints. Once configured, Spotify Connect Endpoints allows any speaker or group connected to the streamer to be a playable Spotify Connect Endpoint. Alternatively, Spotify Connect Endpoints can be configured by navigating to Savant Music Service > Settings > Spotify Settings.

Use your phone, tablet or computer as a remote control for Spotify. Go to spotify.com/connect to learn how.

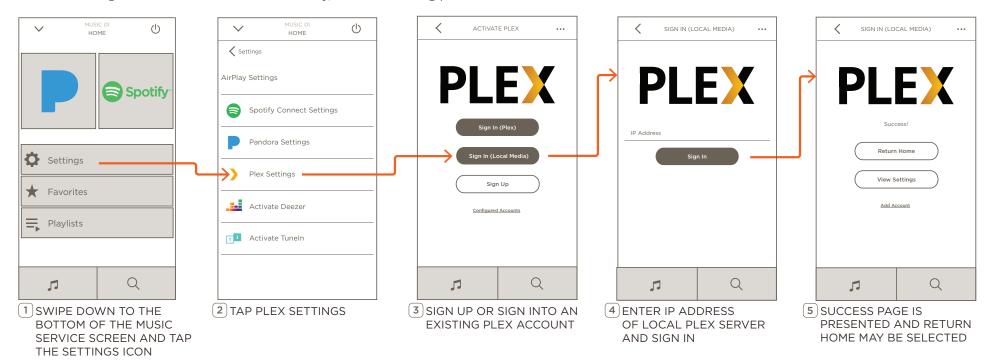

IMPORTANT NOTE: The last user to access a Savant audio endpoint via Spotify Connect will retain remote access to that endpoint indefinitely, or until accessed by another user.

PlexAfter the login credentials have been entered into the Savant App, a Plex server will need to be selected.

Plex Local Servers

For first time sign in to a Plex Server installed locally, use the following process.

NOTE: Multiple Plex servers can be added. From the Savant App Music screen seen on step 1, navigate to Settings > Plex Settings > Select Server.
